Incident classification

☐ True positive

☒ False positive

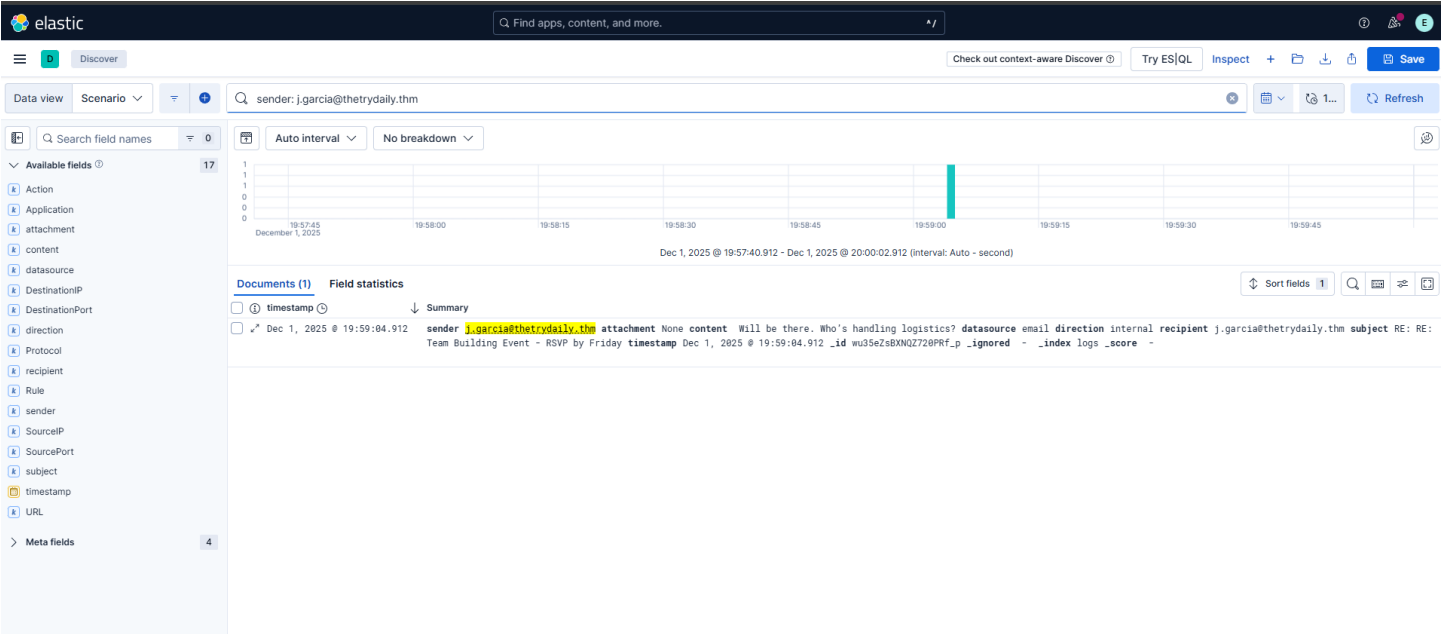

Closure rationale

Explain why you have identified this incident as a false positive.

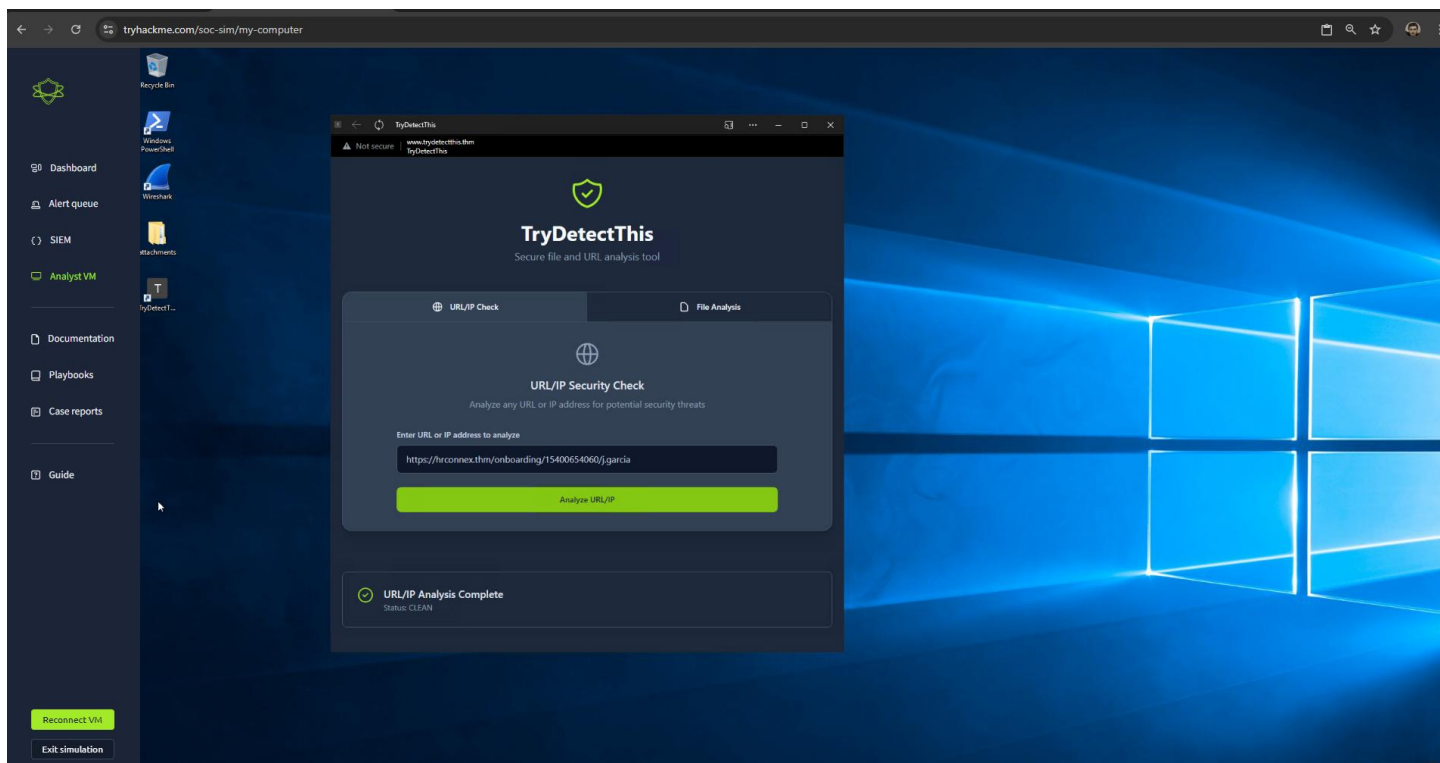

-Time of Incident: 12/01/2025 11:54:27.520
-User Involved: j.garcia@thetrydaily.thm
-Device: Email system (inbound email)
-Incident Details: At 12/01/2025 11:54:27.520, an inbound email with the subject "Action Required: Finalize Your Onboarding Profile" was received from onboarding@hrconnex.thm. The email contains an external link to https://hrconnex.thm/onboarding/15400654060/j.garcia. While the link may be legitimate for onboarding purposes, the presence of external URLs with potential phishing characteristics triggered the alert. Investigation should include checking firewall or proxy logs to confirm whether any endpoint attempted to access the link and whether it was allowed or blocked.
-Malware Identified: None identified. Suspicious email due to external link.
-Additional Investigation: 1. The domain is legitimate as it belongs to the company. 2. The link attached returned clean according to the tool used to investigate the link: TryDetectThis
-Recommendations: Escalate to Level 2 (L2) for further investigation and validation of the link.
-This is a False Positive
-No need to escalate to L2 for further investigation

Save and close alert

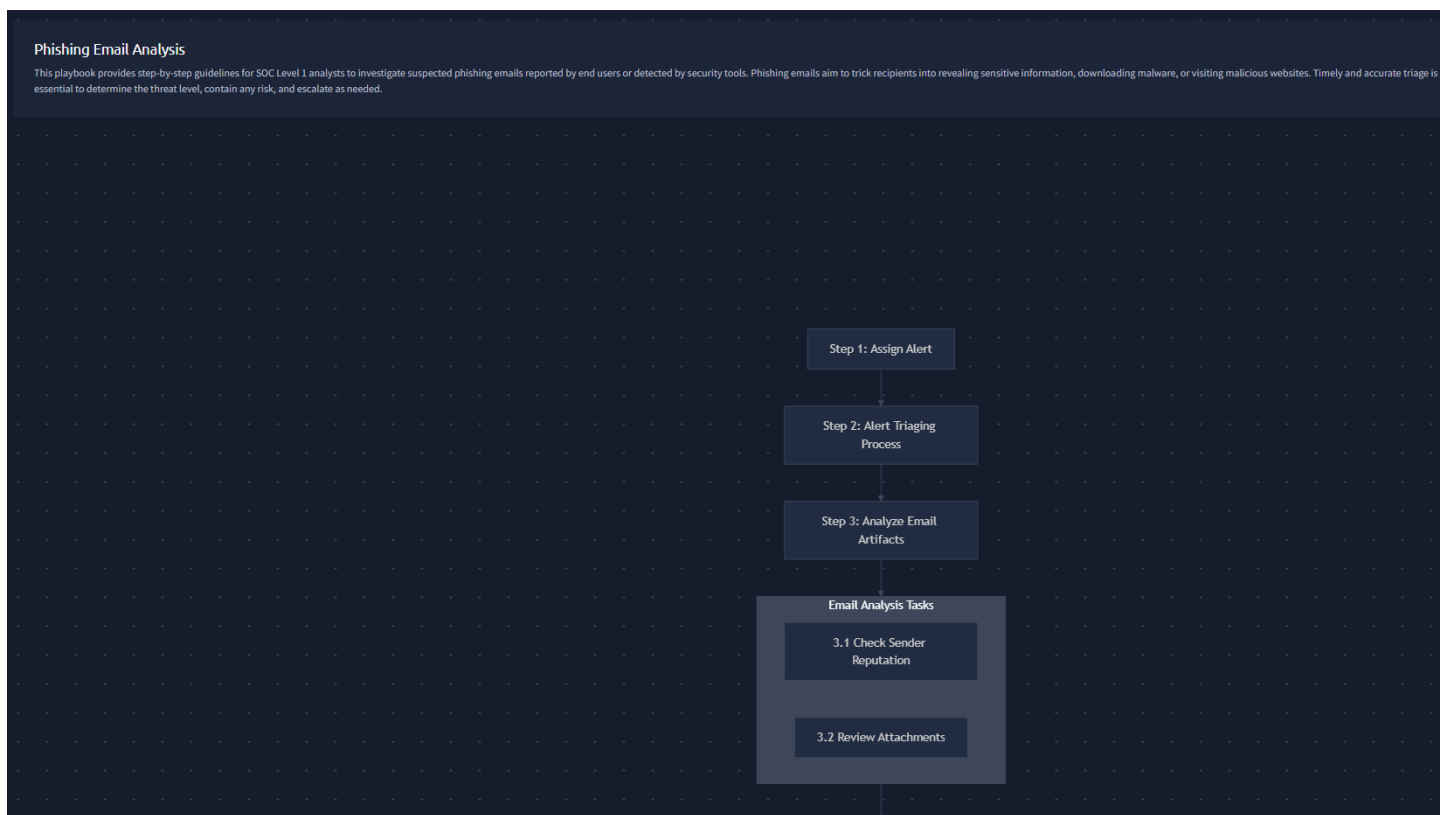

- Alert 8814: Phishing
- Identified as False Positive
 - Does not require escalation to L2
 - Full Report Documented on the last page

- SIEM Investigation
- For reference: The email does not contain any file attachments.

Detection Tool Result: Clean

Playbooks used: Phishing Email Analysis
